ODOO PLATFORM

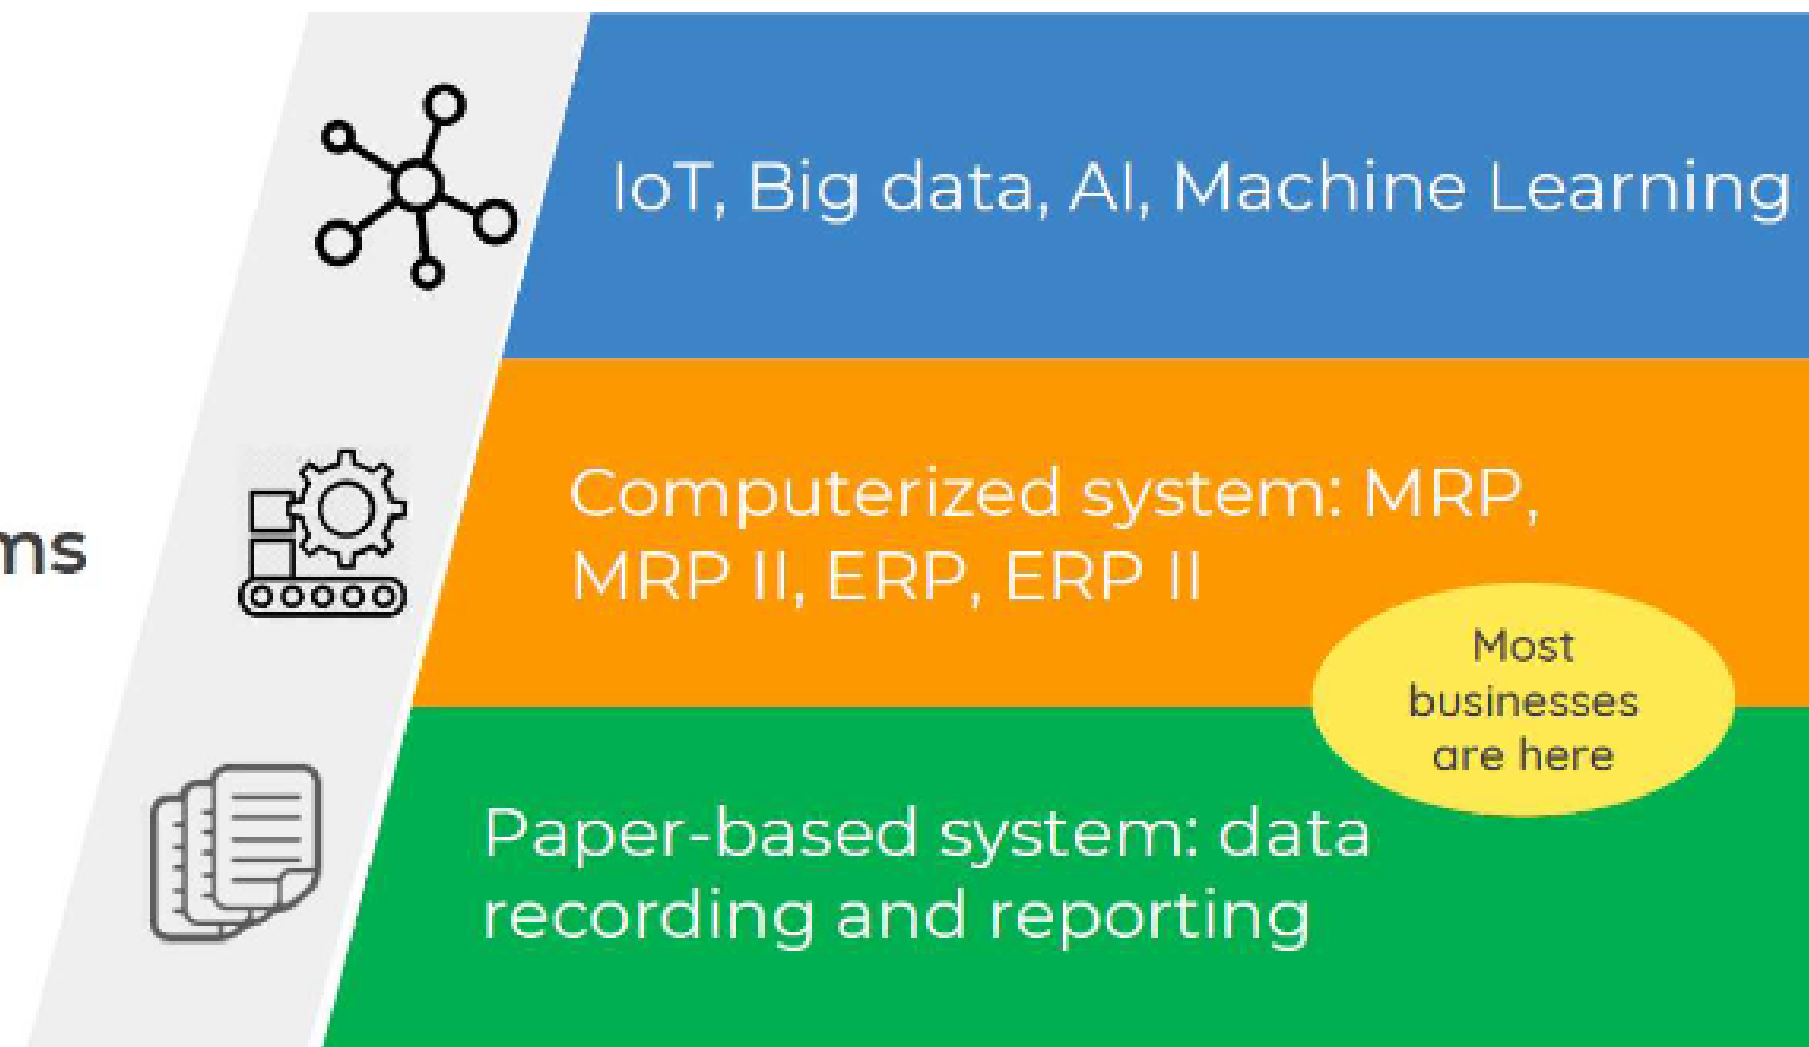

Digital Transformation with Odoo Platform

"Digital transformation is the use of technology to make resourceful enhancements to an organization. It is more than a simple technology initiative and is instead a plan to completely renovate an organization's business model"

The evolution of **management information systems**

- IoT, Big data, AI, Machine Learning
- Computerized system: MRP, MRP II, ERP, ERP II
- Paper-based system: data recording and reporting

Most businesses are here
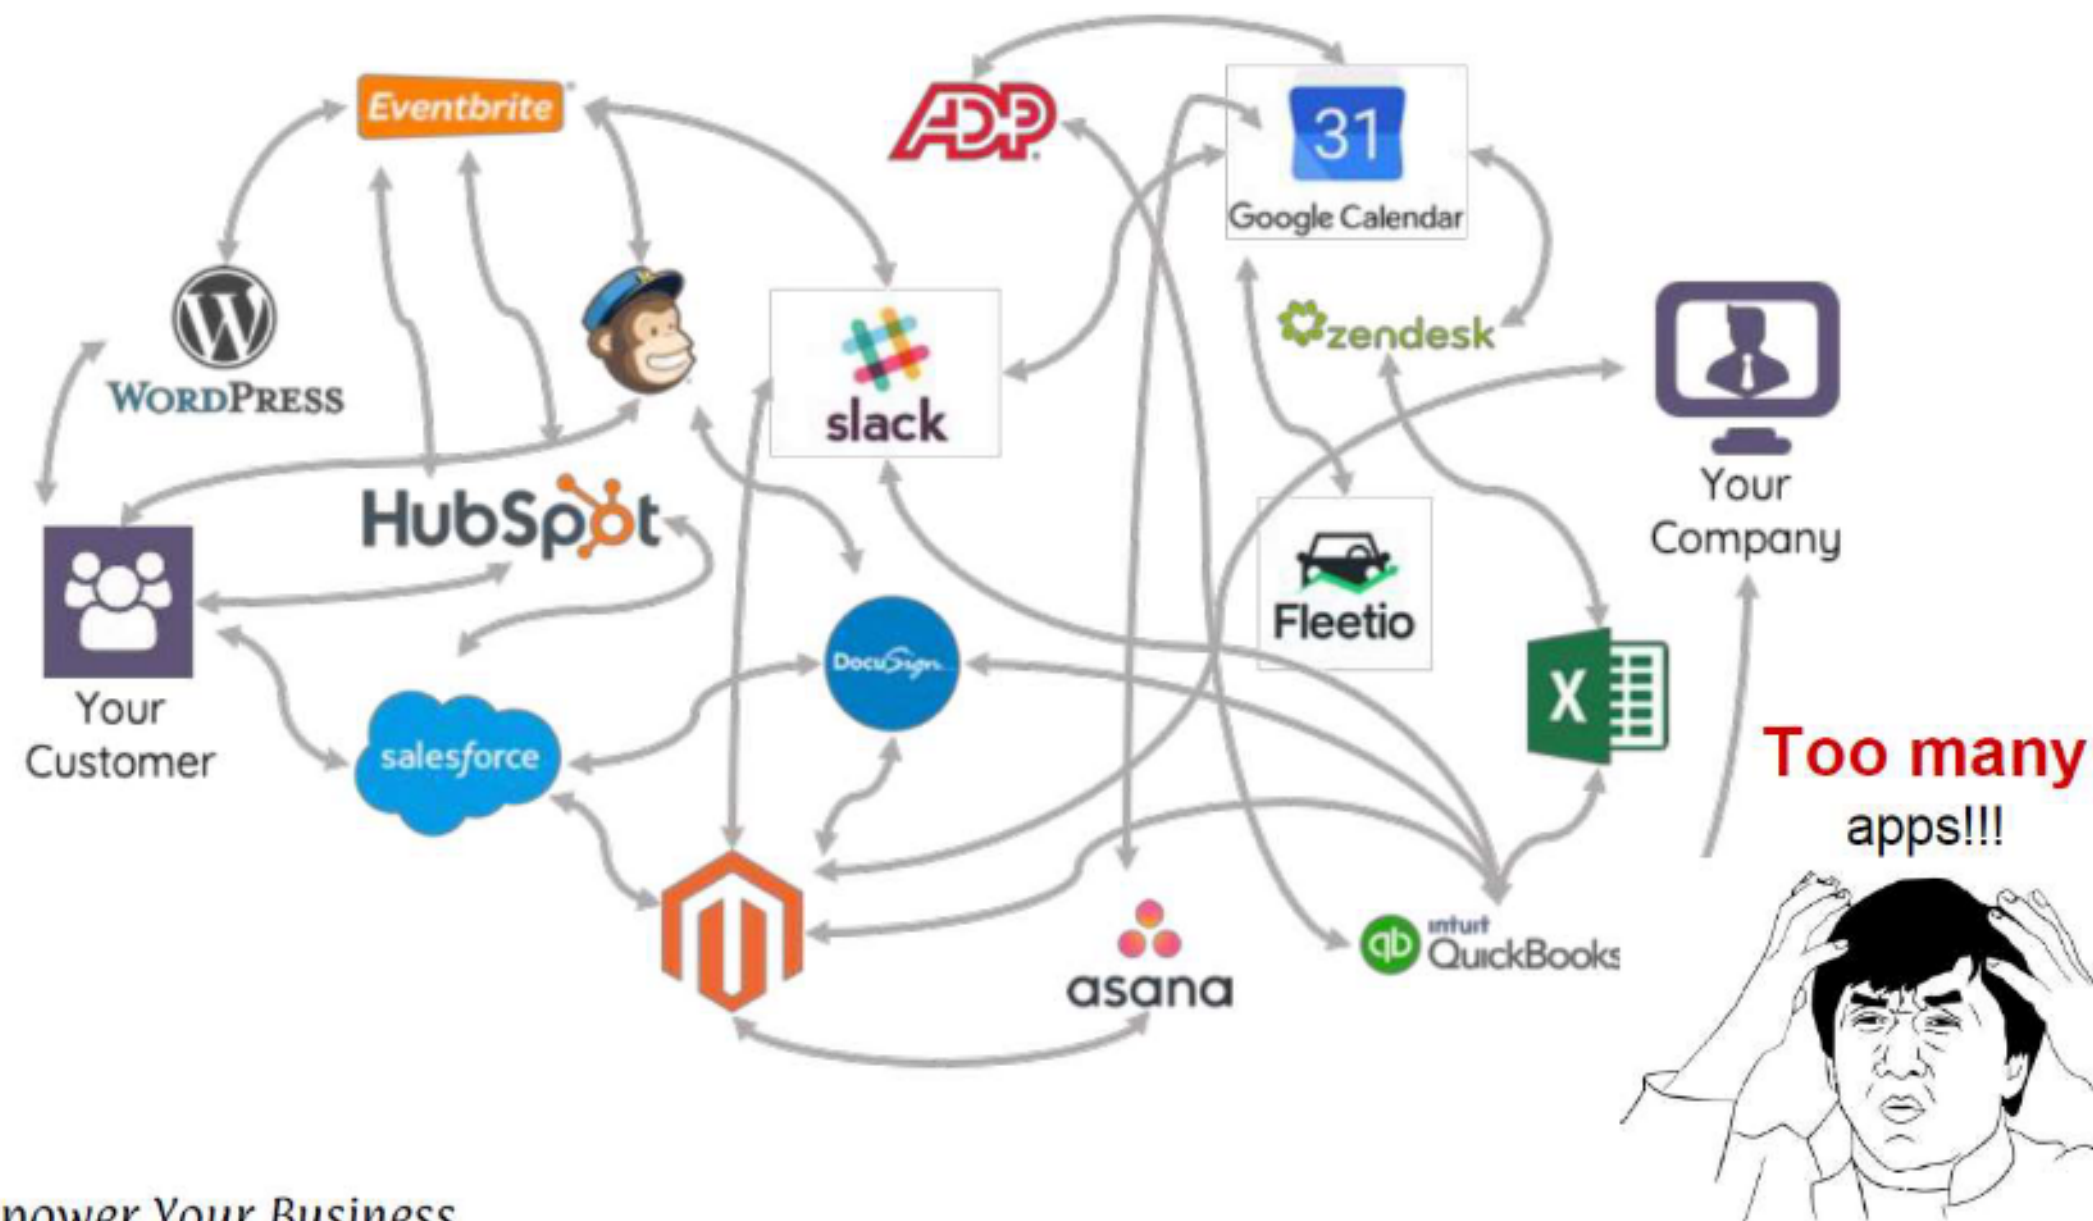

ODOO PLATFORM

Current state of **management system** in enterprises

Multiple Single-Purpose Software. Silos approach. Each line represents a time consuming connector.

Empower Your Business

ODOO PLATFORM
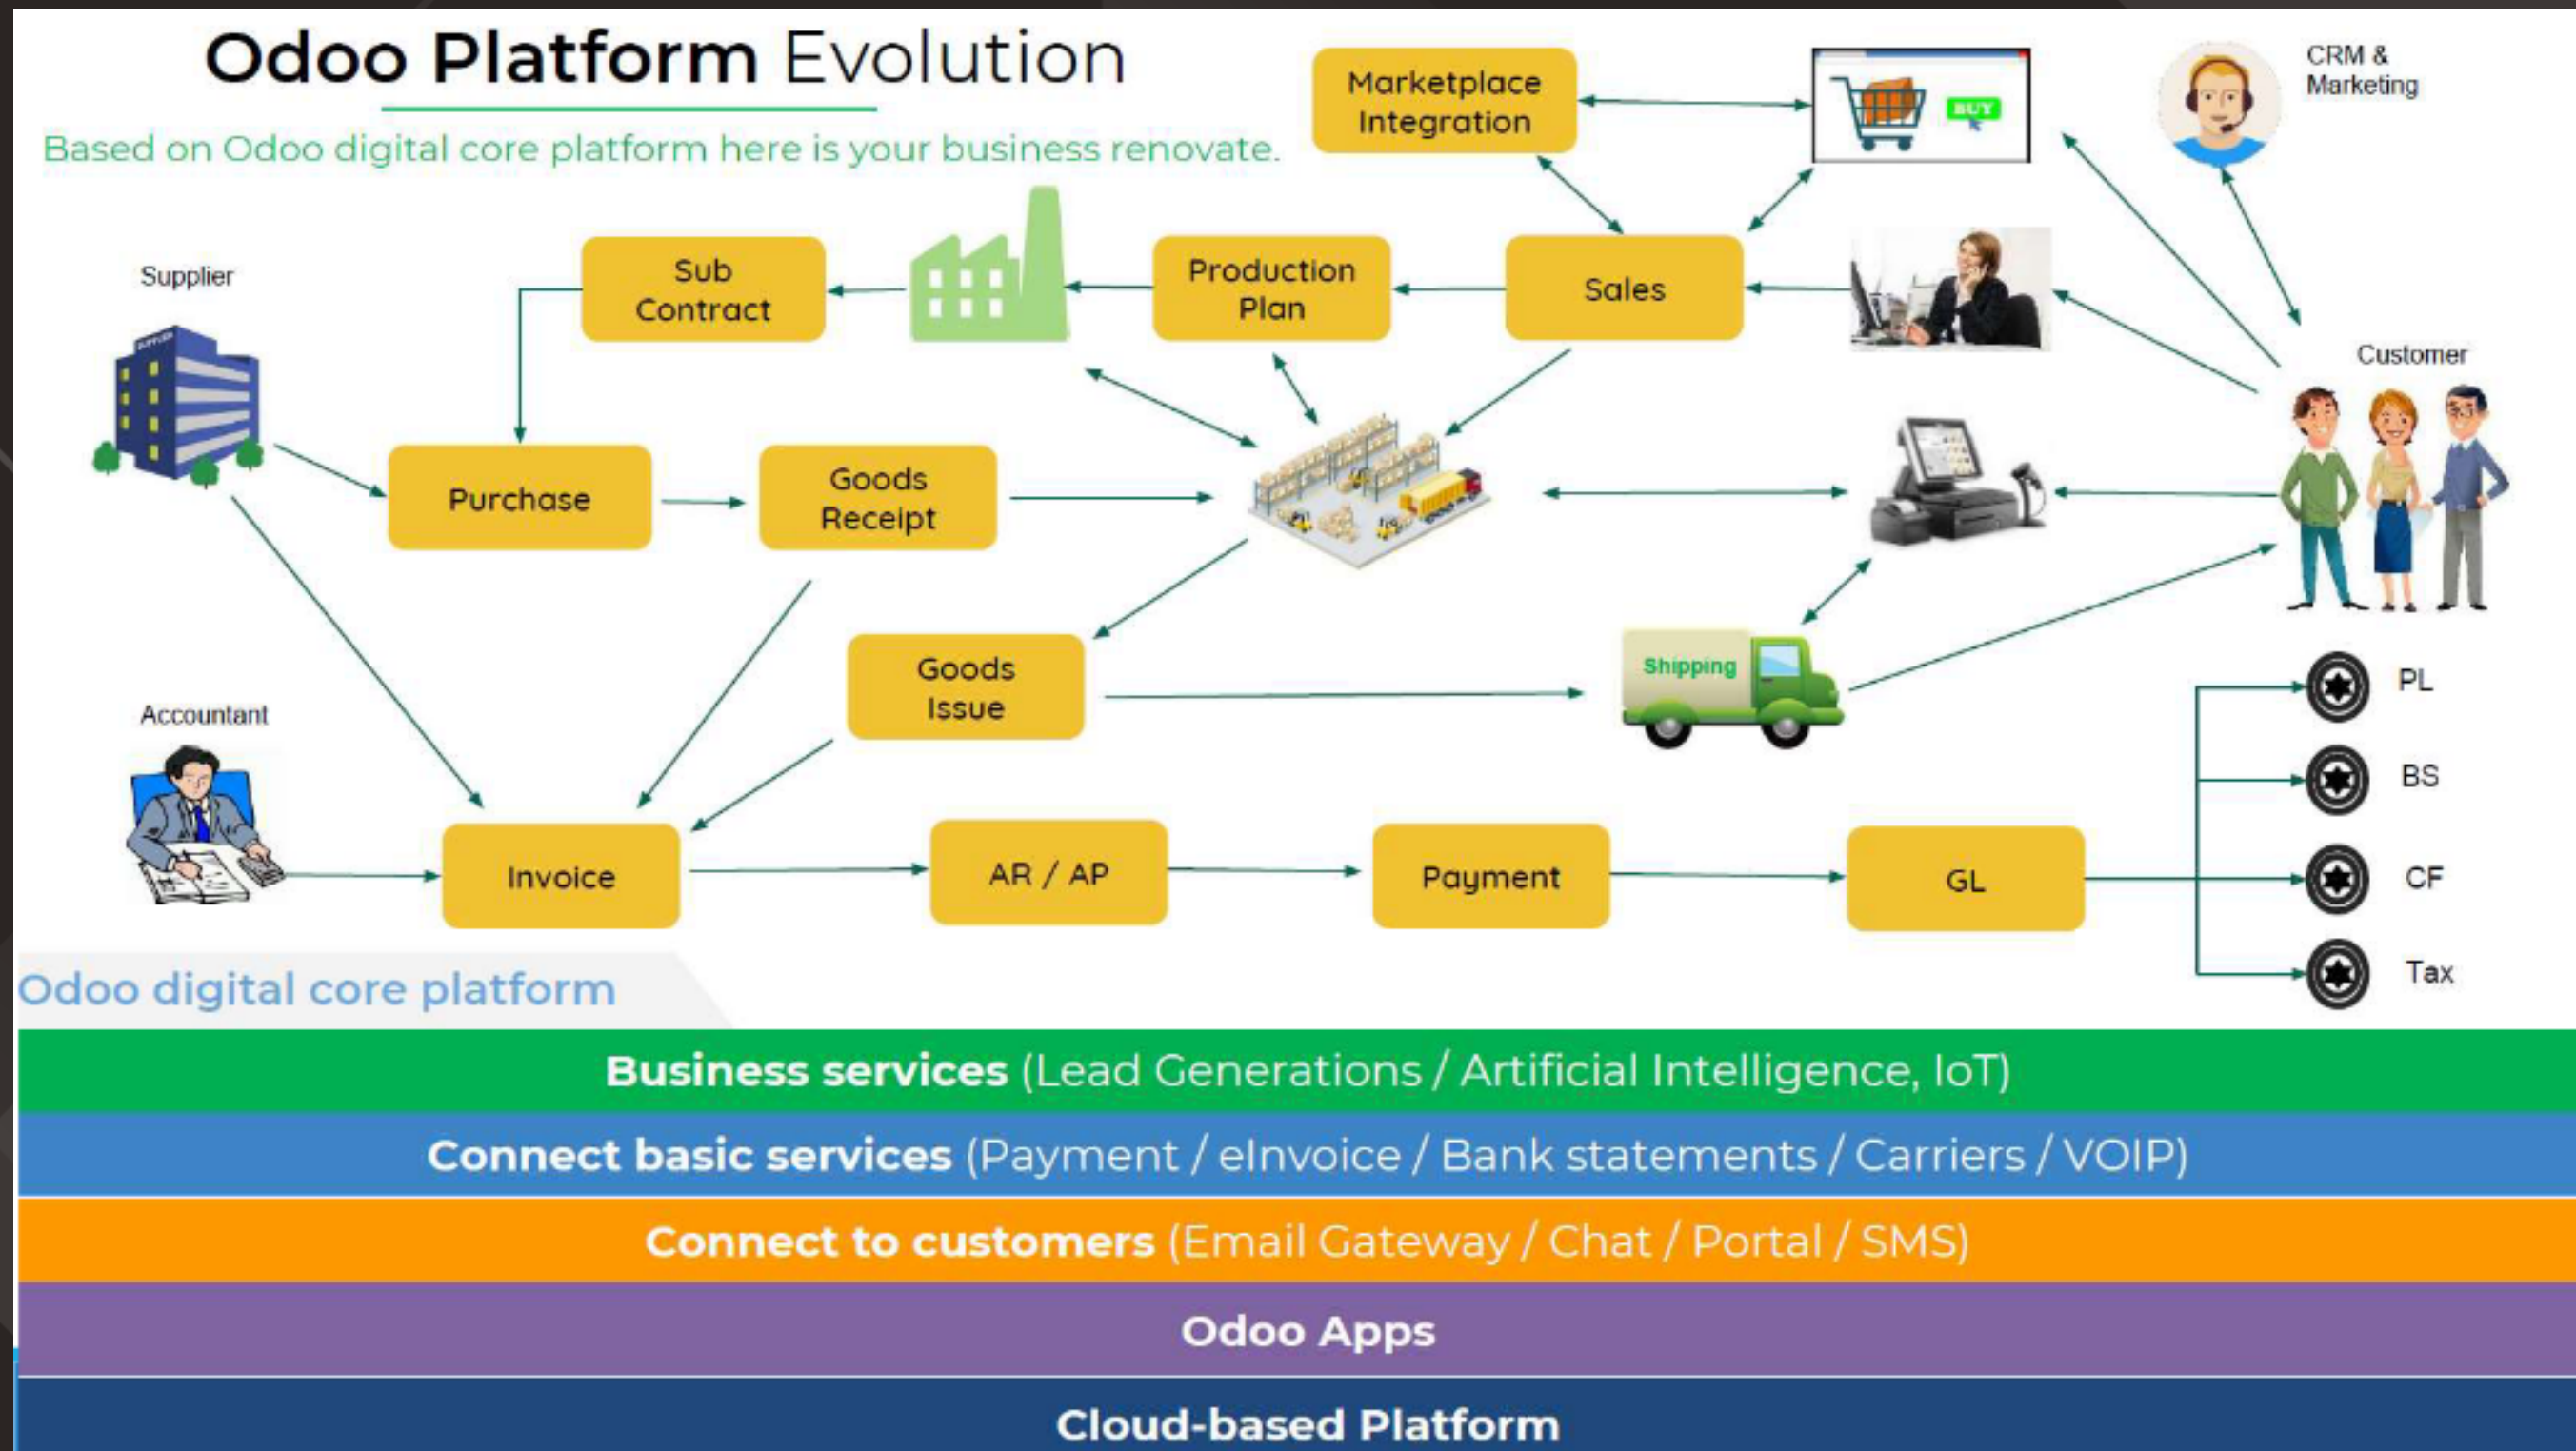

ODOO PLATFORM

Odoo Application Suite

Odoo is a comprehensive suite of business applications

Websites	Sales	Operations	Productivity
· Website builder	· Sales	· Purchase	· Communication

ODOO PLATFORM

Odoo 14 E-learning

Learning Management System (E-learning)

The separate module for e-learning taking into account the requirement of different types of users.

It has included different aspects like the use of multi-media for various courses, discussion platforms, and feedback management.

The interactive learning process ensures the participation of the learners and material sharing and other aspects are part of Odoo ERP for E-learning
